Complying with the NTE, RPA and wall covering regulations: Tiling.

WOOD CARPENTRY

Quality wood carpentry, finished according to design, hidden hinges and anti slamming joint.

Entrance door with steel core, lock and security handle.

Wardrobes 2.40 cm high, whenever possible, dressed inside with shelves, hanging bars with interior light and a row of drawers (1 per wardrobe) with soft closing drawer slides.

ALUMINIUM CARPENTRY

Aluminium carpentry made with high quality profiles, brand Technal, Extruglas or similar, including double glass of the type climalit with thermal control.

Made according to CTE specifications. DB HS Health Code; CTE DB HE Energy saving; NTE-FCL Facades: Light alloy carpentry

SWIMMING POOL

Each house is equipped with a private panoramic swimming pool with an overflowing profile infinity pool).

The entire pool is covered with white tiles. Salt water swimming pool with purification equipment and LED lights.

ELECTRICAL INSTALLATION

Complete electrical installation in the house with high quality mechanisms, brand to be decided, and compatible with home automation, with general panel complying with current regulations of low voltage. Including basic lighting in bathrooms with led type spots.

quality specs

Common note to this report: All constructive specifications and materials referred to in this list are subject to change, in terms of brands, models, specifications, etc, due to the possible discontinuation of products, changes in assistance, guarantees or replacement. It may also be modified and/or replaced due to technical requirements by the Technical Management.

SHOWER SCREENS

Shower screens in tempered glass.

PAINTING

Interior painting with smooth plastic paint of finest quality made according to the NTE-RPP Wall cladding norms: paint.

KITCHEN

Fully equipped kitchen with high quality porcelain worktop, KRION, NEOUTH, SILESTONE, DEKTON or same quality brand,.

High-end appliances: brands BOSCH or SIEMENS.

Separate refrigerator and freezer (two independent units) BOSCH, SIEMENS or same quality brand, with paneled doors.

Faucets RITMONIO, DORNBRACHT, GROHE, ROCA, or same quality brand.

LAUNDRY

Separate from the kitchen in a independent room, to be equipped with a dryer and washing machine such as SIEMENS, BOSCH or same quality brand.

SANITATION

Sanitation of the house with separate pipe-works, fecal and pluvial, in high resistance PVC piping, according to the specifications of the UNE 5332 standard.

BATHTUBS

High quality steel bathtubs, KALDEWEY, NOKEN, ROCA or same quality brands with taps.

Hydromassage will be optional.

HOTWATER

Hot sanitary water production supported by the ALTHERMA system with a 260 liter tank in the secondary circuit.

AIR CONDITIONING

Air conditioning with aerotermia system, which combines the air conditioning with water underfloor heating. The installation of underfloor heating throughout the house will be optional.

Electric underfloor heating will be installed in the bathrooms as well as the installation of build-in air conditioning in the living room and bedrooms with independent control in all rooms.

PLUMBING INSTALLATION

The plumbing installation will be made by means of cross-linked polyethylene pipes and ARMAFLEX cores in cold water pipes. Placement of a water softener in the house or as community installation.

SANITARY EQUIPMENT

High quality sanitary appliances in white, with integrated wall cistern and double flush buttons from GEBERIT, ROCA, or or same quality.

Washbasins integrated into the worktop in high resistance material, to be determined, between KORIAN, SOLID SURFACE or quality similar brand, with under-worktop unit.

TAPS

High-end taps from RITMONIO, GROHE, DORNBRACHT, ROCA, or same quality brands, and ceiling sprinklers according to the architects' criteria.

TELECOMMUNICATIONS INSTALLATION

The installation of telecommunication, television and telephone will be carried out according to current regulations of television and telephone sockets in the main rooms, kitchen and exterior television sockets on the main porch.

HOME AUTOMATION

The home automation installation will be basic.

The installation has the option of being controlled and operated over the internet using a tablet.

GARAGE

Automatic up-and-over garage door. Installation and storage room

Stoneware pavement in 30x30 cm format. Metal fire door in the independence vestibules.

COMMON AREAS

The Social Club is equipped with a gymnasium, changing rooms and a multipurpose room.

It has a large outdoor infinity pool and a lush garden with spectacular sea views.
