The Masterplan

Just 44 private residences are available within this gated community, providing two and three bedroom apartments, including 10 penthouses, each of which have their own private pools. Amongst the landscaped gardens, there is a beautiful heated pool, sun deck and outdoor covered kitchen for dining with family and friends.

To ensure that time in residence is as enjoyable and hassle free as possible, a comprehensive concierge service is available. For the convenience and safety of owners, there are ample underground parking spaces, private storage areas and 24hr security with guarded patrols to ensure peace of mind.

Exceptional Space & Facilities

On the Mediterranean coast, the quality of the space outside is as important as what is on the inside, so we have taken great care, time and effort to ensure that the communal areas are well designed, spacious and secure. All apartments face onto the sea and gardens that are

beautifully landscaped. An inviting 25m heated pool sits adjacent to a well-appointed sun deck with comfortable loungers and an inviting covered terrace and kitchen area with barbeque facilities and ample seating and lounge areas.

A couple is walking away from the camera, hand-in-hand, in a bright, sunny outdoor setting. The woman is on the left, wearing a white, backless dress with a large white bow at the waist and a green and yellow woven bag. She is wearing sunglasses and has long, wavy brown hair. The man is on the right, wearing a white long-sleeved shirt and light green shorts. They are both smiling and looking towards each other. The background features a stone pillar, lush green trees, and a white patio umbrella, suggesting a resort or park environment.
