MAXIMUM ENERGY SAVING

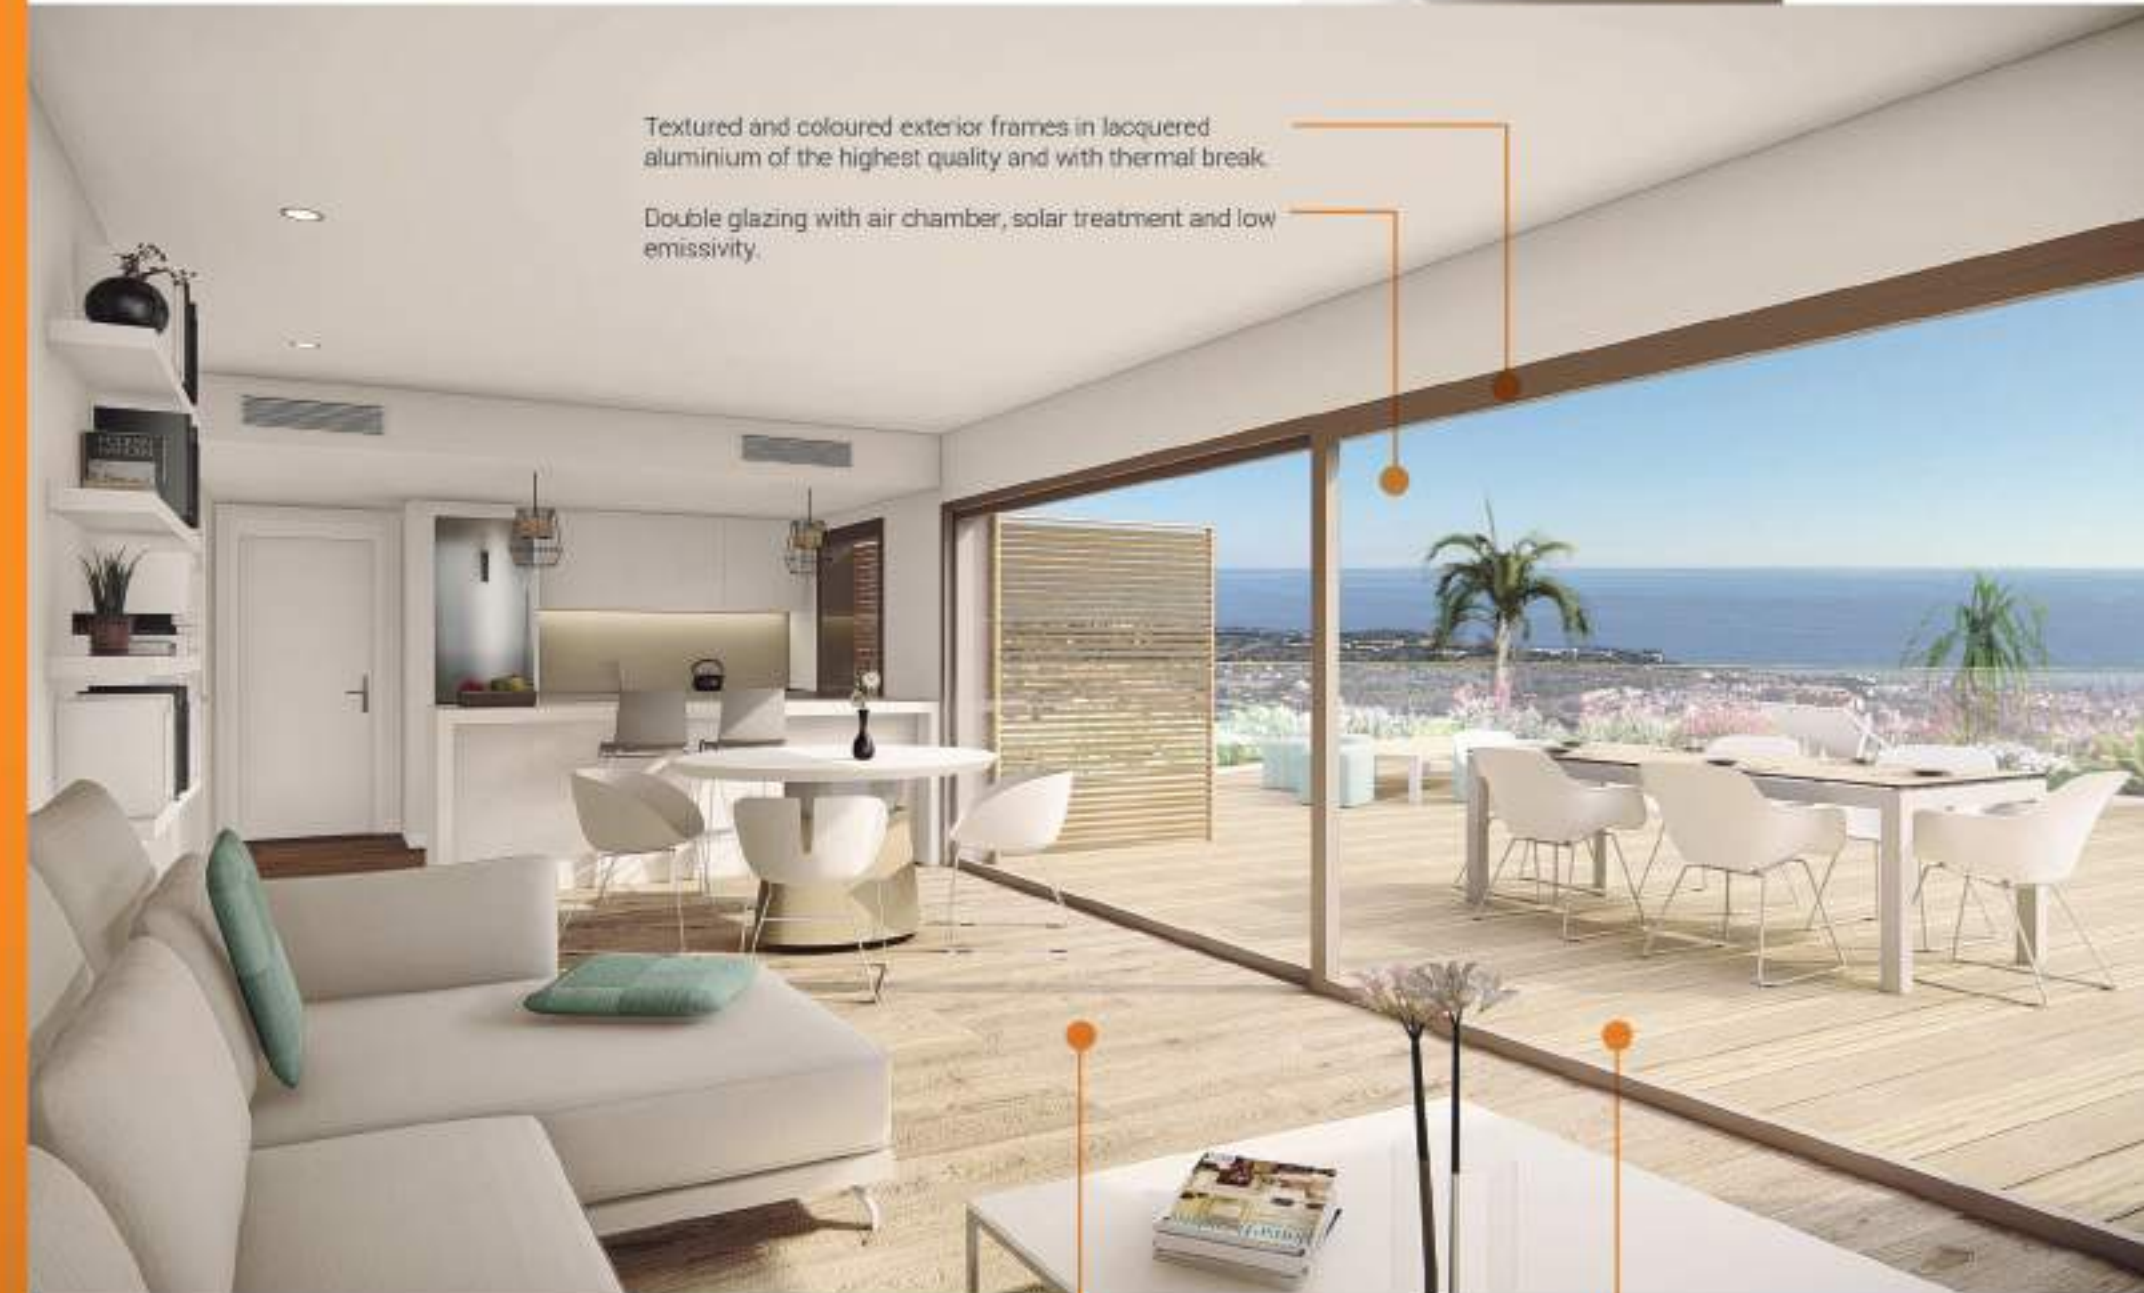

Cassia Estepona comes with the highest energy rating. Our commitment to efficiency means guaranteeing proper heat insulation, hermetic windows that allow light through but keep the heat and cold out, and appliances with low energy consumption.

Because it's not just about making savings, it's about caring for the environment.

ENERGY EFFICIENCY GRADE **A**

The highest energy efficiency rating means considerable savings in energy as a result of various initiatives, such as suitable LED lighting, aerothermal climate control, homes that face the right way and using efficient materials throughout the construction process to ensure the smallest possible carbon footprint.

Textured and coloured exterior frames in lacquered aluminium of the highest quality and with thermal break.

Double glazing with air chamber, solar treatment and low emissivity.

Imitation wood porcelain flooring in lounge, bedrooms and transit areas.

SPACE AND PRIVACY

The large lounge windows open up completely to the spacious sun-drenched terraces. A natural flow of visually and aesthetically integrated environments in an area of your home where time seems to stand still.

FROM INNOVATION TO ACTION

An innovative roofing system makes for more attractive and cooler terraces. The system also insulates the walls and ceilings in the upper areas from the heat. These are terraces that are full of life and nature.

The two-face design of the homes ensures maximum sunlight and perfect circulation of naturally ventilated air.

Gardens with native species that require less watering.
